Nursing Policies

Continuation and Progression Policies

All nursing students must read and abide by the rules set forth in the SWAU Department of Nursing Student Handbook, and sign the Nursing Student Agreement.

1. Nursing students are required to meet the curriculum and progression guidelines published in the most recent edition of the University *Bulletin*.
2. The Department of Nursing reserves the right to require withdrawal of a nursing student from the program or a nursing course who fails to demonstrate competency or academic integrity and/or displays inappropriate/unprofessional/dishonest or unsafe behavior. Additional criteria for continuation in the program are consistent with the standards of the Texas Board of Nursing (BON).
3. Students must maintain a cumulative nursing GPA of at least 2.5 in required nursing courses to progress in nursing and to graduate. No grade lower than 75% (C) will be accepted in nursing and nursing cognate courses. Students whose nursing GPA falls below 2.5 at any time during the program must raise their nursing GPA to 2.5 or better in the next semester to continue in the program. If the nursing GPA remains below 2.5 for a second semester, the student will be required to repeat a nursing course (including clinical), specified by the Nursing Faculty Committee to raise the nursing GPA to 2.5 or above. Students who repeat a nursing course to raise their nursing GPA must re-enroll in the course within one year. If the nursing GPA remains below 2.5 after the repeated nursing course, the student will be permanently dropped from the program.
4. Students are allowed only one repeated nursing course (this policy does not include NURS 450 Nursing Capstone).
5. Students are allowed only one nursing course withdrawal, which must be withdrawn by the university withdrawal date.
6. All nursing courses are to be completed within a six-year time frame.
7. Students must complete all nursing courses at Southwestern Adventist University. Exceptions to this policy will be evaluated on an individual basis.
8. LVN students must maintain current unencumbered Texas licensure throughout their enrollment in the nursing program.
9. LVN students must complete nursing courses in the sequence specified in the full-time degree plan.
10. After acceptance but before the first clinical, all students must submit to and pay for a background check and drug screen completed through the Nursing Department's compliance management company, CastleBranch. Proof of required immunizations, TB test, and CPR documentation must also be submitted to CastleBranch prior to Nursing Orientation and updated to remain current throughout the Nursing Program.
11. All nursing students must meet all functional abilities necessary for clinical practice as outlined in the SWAU Nursing Student Handbook.
12. Students must pass a medication dosage calculation exam at the beginning of Medical Surgical Nursing I, II, III, and IV, with a score of 100% within three attempts. This must be completed by the end of the 2nd week of school. If a student is unable to successfully pass this exam, remediation will be assigned by the course instructor and clinical experiences may be impacted.
13. Students who fail or withdraw from a required NURS course cannot enroll in further nursing courses, except for the following which allows continuation: NURS 227 Gerontological Nursing, NURS 321 Evidence-based Practice, and NURS 426 Nursing Leadership. Students may repeat the failed/dropped course on a space-available basis.
14. Students must successfully complete all NCLEX review components as outlined in the NURS 450 Nursing Capstone syllabus. A probability score of at least 94% on the comprehensive NCLEX predictor exam, along with nursing program completion, is required for NCLEX release to the Board of Nursing. Students who score below 94% on the NCLEX predictor exam are required to complete 100% of Virtual ATI and encouraged to achieve green light, along with nursing program completion, before NCLEX release to the Board of Nursing. An extension of Virtual ATI beyond the twelve-week program is at the student's expense.
15. In order to support student success, nursing graduates are required to take NCLEX within three months of NURS 450 Nursing Capstone course completion. Graduates who fail to meet this deadline must complete an approved remediation program prior to NCLEX release. Remediation costs are the responsibility of the graduate.

Termination Policy

The following situations or conditions will result in termination from the nursing program:

- Unsafe, unethical, or unprofessional nursing practice
- Failure to abide by the SWAU Nursing Student Handbook
- Unresolved issues with the drug screen and background checks

Readmission Policy

Students who fail to complete a nursing course, or for any reason are out of the program for one or more semesters, must reapply to the nursing program. Readmission is not guaranteed and space for re-entering students may be limited.

Readmission is possible for nursing students who left the program in good standing and according to the nursing progression criteria. A new background check and drug screen must be completed and approved as part of the readmission process. Students who have been out of the program will return under the current bulletin at a point in the program specified by the Nursing Faculty Committee. All nursing courses must be completed within six years.

Transportation Policies

Students are expected to provide their own transportation to and from off-campus clinical labs. Faculty will not provide transportation. Students are advised not to transport patients in their own vehicles under any circumstances. This policy protects both the student and the patient. Texas law requires proof of automobile liability insurance.

Student Rights and Appeals Policy

The Nursing Department abides by the student rights and appeals policy as outlined in the University *Bulletin*.
