

# BUAD 368: Supply Chain Management Technologies

This course covers the major relevant supply chain technologies and systems. In this course, you'll survey the systems that enable the supply chain in best-in-class supply chain organizations. Understanding how information flows throughout the supply chain is critical to managing a supply chain and this will be the main focus of this course. By the end of this course, you will have gained a basic understanding of how supply chain systems work and how they make the supply chain more efficient and effective. This online class has optional live sessions.

Offered via Rize Consortium
