

BUAD 380: Project Execution, Monitoring & Control, Implementation & Closure

In today's fast-paced work environment, no project proceeds from beginning to end without encountering unforeseen challenges, and the changing scope, priorities, or context of a project may require various adjustments. Additionally, project implementation and closure require conviction and trust in established processes and personnel. In either context, these are vital parts of a project's success and are reflections of how future projects will be managed. This course covers project execution, monitoring/control, implementation/handover, DevOps, and project closure. This course is intended to finalize a student's preparation for their Project Management Practicum and Internship.

Offered most semesters via Rize Consortium

Credits: 3

Prerequisites:

BUAD 280

BUAD 281

BUAD 280 or concurrent

Program: Business Administration
