

CERT 491: Reading in the Content Areas (For Grades 7-12)

This course addresses the importance of developing reading and writing skills across all content areas in middle school and high school. The development of critical reading strategies will be emphasized. Teaching methods will address the needs of both struggling and advanced readers. The development of reading comprehension will be emphasized. Additionally, six hours of training related to dyslexia will be included in this course as required by the Texas Administrative Code (TAC). (TAC Rule 228.35)

Credits: 2-3

Program: Education – Alternative Certification Program
