The primary mission of the Department of Computer Science is to prepare students for professional work in the field of computer science, within a Christian context. We believe that each of our students has a calling in life and that each is uniquely equipped with native talents to fulfill that calling. Our goal is to help our students to develop their talents to the full in order that they might be successful in meeting the challenges ahead of them.

The Associate of Science in Computer Science is intended for students who wish to pursue careers in computer science, or as a stepping-stone to a Bachelor of Science in Computer Science.

Job Market

Graduates with this degree would likely find employment as support specialists in the area of computer networking and/or computer security.

Job Outlook

According to the U.S. Bureau of Labor Statistics, the employment of computer support specialists is projected to grow 10.6 percent from 2016-2026, faster than the average for all occupations. More support services will be needed as organizations upgrade their computer equipment and software.

Earnings

According to the U.S. Bureau of Labor Statistics, the median annual wage for computer support specialists was \$53,470 per year in 2018.
