The Bachelor of Science in Chemistry is one of four exciting Chemistry programs offered by Southwestern Adventist University's Department of Mathematics and Physical Sciences. The other programs are the Bachelor of Arts in Chemistry, the Bachelor of Science in Biochemistry, and Bachelor of Science in Physical Science -Secondary Teacher Certification with concentration in Chemistry. The aim of the chemistry program is to develop in students the ability to think critically and creatively. The chemistry curriculum is designed to provide the student with a strong background in the areas of organic chemistry, biochemistry, analytical chemistry, and physical chemistry. The major will serve as a solid foundation upon which the candidate can build a professional career or a more specialized graduate program.

Job Market

Most of Southwestern Adventist University's Chemistry graduates have chosen to pursue careers in medicine, pharmacy, dentistry, or clinical laboratory science. There are many other career options for chemistry majors. These include graduate school, entry-level positions in academia, industry, analytical labs, pharmaceutical labs, the government, and the chemical industry. National interest in STEM (Science, Technology, Engineering, and Mathematics) disciplines have highlighted the need for graduates trained in these areas, at all academic levels and as a matter of highest national significance.

Job Outlook

The Bureau of Labor Statistics reports that: "Employment of chemists and materials scientists is expected to increase by 4 percent from 2018-2028, slower than the average for all occupations. Chemists and materials scientists with an advanced degree, particularly those with a Ph.D., are expected to experience better opportunities."

Earnings

Earning potential is also affected by geographic location and by whether one pursues a career in industry, academia, or in a government-related organization. Expected earned income for an individual with a BA or BS degree ranges from \$64,230 to \$129,950. (USA News, 2019)

Bachelor's degree candidates are generally qualified for entry-level positions in most career fields. Getting a graduate or professional degree will significantly increase the earning potential of the holder of a first degree.

Required Courses

Item #	Title	Credits
CHEM 111	General Chemistry I	4
CHEM 112	General Chemistry II	4
CHEM 201	Research Methods in the Physical Sciences	1
CHEM 221	Modern Analytical Chemistry	4
CHEM 231	Organic Chemistry I	4
CHEM 232	Organic Chemistry II	4
CHEM 341	Physical Chemistry I	4
CHEM 342	Physical Chemistry II	4
CHEM 431	Biochemistry I	3
CHEM 432	Biochemistry I Lab	1
CHEM 462	Inorganic Chemistry	3
CHEM 475	Research Methods in Chemistry	4
	BS CHEM Electives upper division	4
	Sub-Total Credits	44

Required Cognates

Item #	Title	Credits
CSIS 110	Principles of Computer Programming I	3
MATH 181	Calculus I	4
MATH 182	Calculus II	4
MATH 283	Calculus III	4
PHYS 121	General Physics I	4
PHYS 122	General Physics II	4
	Sub-Total Credits	23

Recommended Cognates

Item #	Title	Credits
MATH 321	Differential Equations	3
PHYS 221	General Physics with Calculus I	1
PHYS 222	General Physics with Calculus II	1
	Intermediate Foreign Language	6
	Sub-Total Credits	11

Sample 4 Year Curriculum

General Education Requirements

To view general education requirements for this major please visit: <https://catalog.swau.edu/core-curriculum-for-a-bachelors-degree>

First Year First Semester

Item #	Title	Credits
CHEM 111	General Chemistry I	4
CSIS 110	Principles of Computer Programming I	3
ENGL 121	Freshman Composition	3
	Religion GE Curriculum Guide	3
UNIV 111	Wellness for Life	2
	Sub-Total Credits	15

First Year Second Semester

Item #	Title	Credits
CHEM 112	General Chemistry II	4
COMM 111	Speech	3
	Fine Arts GE Curriculum Guide	3
	History GE Curriculum Guide	3
	Religion GE Curriculum Guide	3
	Sub-Total Credits	16

Second Year First Semester

Item #	Title	Credits
CHEM 221	Modern Analytical Chemistry	4
CHEM 231	Organic Chemistry I	4
ENGL 220	Research Writing	3
	Kinesiology GE Curriculum Guide	1
PHYS 121	General Physics I	4
	Sub-Total Credits	16

Second Year Second Semester

Item #	Title	Credits
CHEM 201	Research Methods in the Physical Sciences	1
CHEM 232	Organic Chemistry II	4
MATH 181	Calculus I	4
PHYS 122	General Physics II	4
	Religion GE Curriculum Guide	3
	Sub-Total Credits	16

Third Year First Semester

Item #	Title	Credits
CHEM 341	Physical Chemistry I	4
CHEM 431	Biochemistry I	3
CHEM 432	Biochemistry I Lab	1
	History GE Curriculum Guide	3
MATH 182	Calculus II	4
	Sub-Total Credits	15

Third Year Second Semester

Item #	Title	Credits
CHEM 342	Physical Chemistry II	4
	CHEM Electives upper division	4
	Social Science GE Curriculum Guide	3
	Kinesiology GE Curriculum Guide	1
MATH 283	Calculus III	4
	Sub-Total Credits	16

Fourth Year First Semester

Item #	Title	Credits
BIOL 103	Human Biology	4
	Electives for 120	3
	Electives for 120	3
	Literature GE Curriculum Guide	3
	Sub-Total Credits	13

Fourth Year Second Semester

Item #	Title	Credits
CHEM 462	Inorganic Chemistry	3
CHEM 475	Research Methods in Chemistry	4
	Electives for 120	3
	Religion GE Curriculum Guide	3
	Sub-Total Credits	13
