The mission of Southwestern Adventist University's Department of Kinesiology is to promote lifetime physical activity and a healthy lifestyle for all students at the university; it further seeks to prepare kinesiology majors for a variety of careers by fostering the knowledge and skills needed to be successful in the field. All this is done in a Christ-centered environment shaped by Seventh-day Adventist and Christian values. In addition, the Kinesiology department focuses on the development of the whole student. The integration of the physical, mental, and spiritual powers within the curriculum, instruction, and activity are paramount to the program. We seek to prepare students for success in their chosen professional careers by developing critical thinking, communication, and analytical skills. Of special concern is the development of an understanding and respect for God's amazing creation, the human body.

Job Market

Students may elect courses that prepare them for careers as elementary or secondary physical education teachers. A major in Physical Education will also prepare the student for a career in the public or private sector of recreation or coaching.

Job Outlook

Employment of high school teachers is expected to grow by 8 percent from 2016-2026, as fast as the average for all occupations. Overall growth is expected due to declines in student-to-teacher ratios and increases in enrollment. However, employment growth will vary by region.

Employment of coaches and scouts is expected to grow 13 percent from 2016-2026, faster than the average for all occupations. Those who are state-certified to teach academic subjects are likely to have the best prospects for getting coaching and instructor jobs in elementary, middle, and high schools. The need to replace coaches who change occupations or leave the labor force also will provide some jobs. Very strong competition is expected for jobs at the college or professional level.

Earnings

The median annual wage of high school teachers was \$60,320 in 2018. The median annual wage of coaches and scouts was \$33,780 in 2018.

While majoring in a content area, future teachers enroll in the teacher preparation program and take classes in education and child psychology. Teacher preparation programs instruct how to present information to students and how to work with students of varying abilities and backgrounds. The program includes fieldwork, such as student teaching. Some states require high school teachers to earn a master's degree after earning their teaching certification. All states require teachers in public schools to be licensed
